Altegio

Business Management (1.0.0) Copy

Full-featured B2B API for business operations.

Base URL: https://api.alteg.io/api

Version Status

V1 will be gradually deprecated. We recommend using V2 API for new integrations. V1 endpoints are maintained for backward compatibility, but new features will be released in V2 only.

Authentication

Requires both partner and user authorization:

Authorization: Bearer <partner_token>, User <user_token>
